Marketing your ACY Securities affiliate link

Your dedicated URL link

As an affiliate partner with ACY Securities, you will be provided with a dedicated URL link. This link is unique to your account and can be used to promote our products and services to your audience. By using your dedicated URL link, any individuals who click on it and subsequently sign up for an account with ACY Securities will be tracked as your referral.

You will find your URL link within the ACY Securities client portal.

You can use this link on your website, social media, or in any other marketing materials. Additionally, you can also use it to track the performance of your promotions and see how many individuals have signed up through your link. This will enable you to monitor your earnings and see how successful your promotions have been.

In summary, your dedicated URL link is a powerful tool that allows you to promote ACY Securities to your audience and track your referral activities, which ultimately helps you to increase your earning potential.

Customising the pages you promote with your affiliate link

You will notice your affiliate code looks like this example: www.acy.com/en?affiliate=LTD42234

This is the standard template and allows you to create affiliate links for any page on our website

Here is how to use any page on our site to promote your affiliate link.

1. Let's say you wanted to promote our free trading webinars available at this link <https://acy.com/en/education/webinars/>
2. All you need to do is add your affiliate link to the end.
3. Your personal affiliate link would then look like this: <https://acy.com/en/education/webinars?affiliate=LTD42234>

Here are a few other examples of popular pages our affiliates like to promote using their affiliate link.

- <https://acy.com/en/tradingcup?affiliate=LTD42234>
- <https://acy.com/en/education/metatrader-scripts?affiliate=LTD42234>
- <https://acy.com/en/platforms/trading-tools/forex-vps?affiliate=LTD42234>
- <https://acy.com/en/platforms/mt4?affiliate=LTD42234>
- <https://acy.com/en/platforms/mt5?affiliate=LTD42234>
- <https://acy.com/en/platforms/account-types?affiliate=LTD42234>
- <https://acy.com/en/campaign/forex-bonus-giveaway?affiliate=LTD42234>

Simply replace the affiliate ID (LTDXXXXX) with your ID and you can start promoting your links

How the ACY Securities cookie tracking works

Affiliate tracking cookies are small text files placed on a user's computer or mobile device when they click on an affiliate link. These cookies are used to track the actions of the user and attribute any resulting sales or conversions to the appropriate affiliate.

At ACY Securities, we use cookies to track the performance of our affiliate partners. When a user clicks on an affiliate link, a cookie is placed on their device. If the user then goes on to sign up for an account with ACY Securities within a 30 day period, the sale will be attributed to the affiliate.

This tracking method allows us to accurately attribute conversions to the correct affiliate and ensure our partners are properly compensated for their efforts.

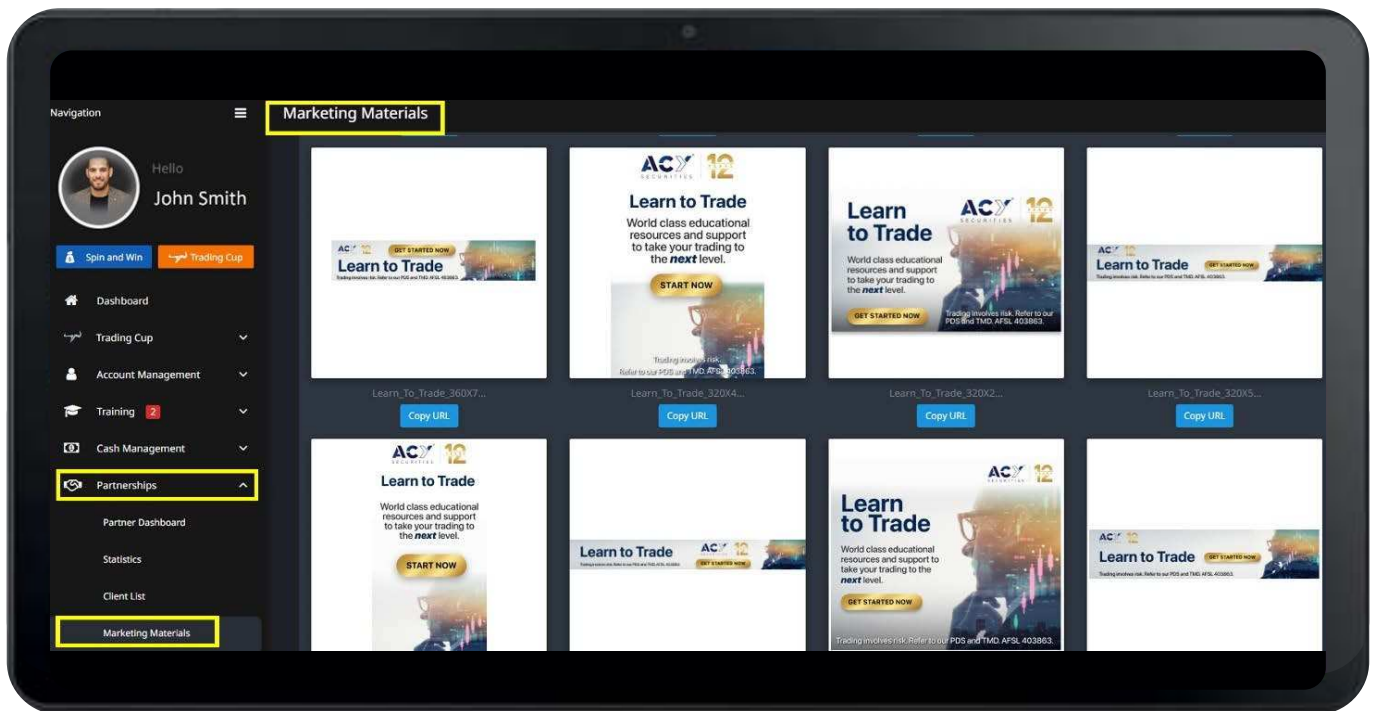

High-converting marketing banners in various sizes

As an affiliate partner with ACY Securities, you have access to a suite of high-converting marketing banners you can use to promote your affiliate links.

These banners have been designed by our team of designers to effectively promote our MT4/MT5 platforms, our low spreads, range of instruments to trade, special offers (if available), and are proven to convert well.

They are available in all the popular banner sizes and can be easily integrated into your website or other marketing materials.

Our banners are regularly updated with the latest offers, so you can be sure you are always promoting the most current and relevant information to your audience.

You can use these banners to promote our products and services on your website, social media, email campaigns, and more. Using these high-converting banners, you can increase your chances of getting clicks on your affiliate links and ultimately increase your earning potential.

Using trading education to propel your success

When it comes to beginner traders, the recipe for success starts with a genuine passion for educating your newbie clients.

Many of our top affiliates achieve this by hosting live seminars, conducting [webinars](#), crafting enlightening [YouTube videos](#), or maintaining content-rich websites brimming with unique trading strategies.

Think in terms of providing value to traders. The more value you deliver, the more trust and credibility you will gain with your followers. This has been one of the most powerful ways for top-performing affiliates in the forex niche for over a decade.

Education through podcasting: Over the past few years, we've witnessed the remarkable ascent of trading podcasts within the trading community.

Many of these passionate educators have leveraged the power of podcasting to capture the attention and engage with our target market.

They've adopted a smart approach, often conducting interviews with seasoned, successful traders to draw in a devoted following.

It's fascinating to note these podcasters are not only making substantial incomes through affiliate partnerships but are also reaping the rewards of paid marketing offers in the forex space.

The Power of using Forex Signals

Our top affiliates wield a potent weapon: forex trading signals. They generously offer referred clients an exceptional opportunity – sign up through their affiliate link and gain complimentary access to their premium forex trading signal service.

Imagine, clients who would typically pay \$US100 or more per month now enjoy this service for free. This not only fosters loyalty but also translates into stable trading volumes month after month, potentially enhancing their affiliate earnings.

These affiliates understand this goodwill nurtures loyalty, and loyal clients are the bedrock of sustainable success. So, don't just think of it as a service; it's a strategy that can solidify your earnings in the long term.

Leveraging Expert Advisors (EAs)

Let's talk Expert Advisors. The crème de la crème of affiliates possess a treasury of Expert Advisors (EAs) or Trading Robots at their fingertips.

Our best affiliates generously share their EAs on both MT4 and MT5. Open a live account through their affiliate link, and you gain access to their EAs.

Furthermore, they extend a helping hand to assist their clients in setting up these EAs. You'll also find yourself welcomed into a vibrant Telegram or Discord channel – a thriving community of traders who support and uplift one another.

If you have the coding expertise, you must leverage this skillset to power your affiliate marketing potential.

Here's the deal: Success leaves a trail of clues. The strategies utilised by our most accomplished affiliates are yours for the taking.

Seize the moment, put these strategies into action, and watch your leads and accounts ascend to remarkable heights. Armed with the resources, tools, and the unwavering support of ACY Securities, your path is clear.

Join the ranks of the best, and shortcut the time taken to build an affiliate business you would be proud of.

- Do provide value to your audience by providing honest reviews, informative content, and offering helpful trading tips.
- Do use a variety of marketing tactics, such as
 - Email campaigns
 - Social media
 - Content marketing
 - YouTube tutorial videos
- Do track your results and optimise your campaigns for better performance. You can access your full analytics dashboard in the client portal as per the image below.

Don'ts:

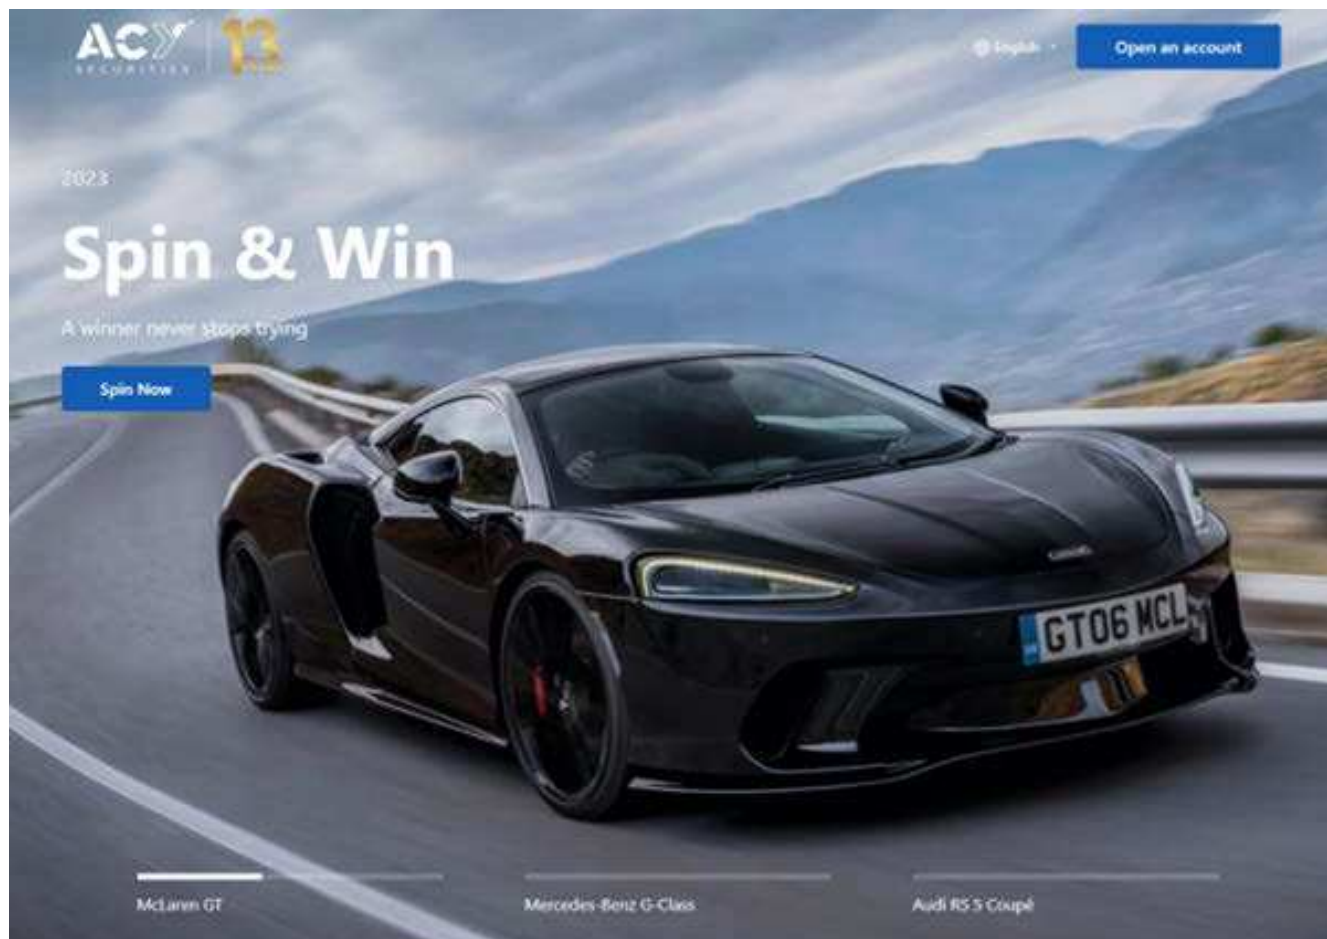

- Don't promise any return or suggest any result in the future is possible. Nobody can predict the future and the regulators are strict when it comes to making promises or suggestions of returns or success in trading.
- Don't promote products or services you have not personally used or cannot vouch for.
- Don't use misleading or deceptive tactics, such as fake reviews or clickbait headlines, to lure people to click on your affiliate links.
- Don't overuse affiliate links in your content, as it can come across as spammy and turn off your audience.
- Don't neglect to disclose your affiliate relationship, as it is often required by law.
- Don't suggest trading is easy or simple. Trading is complex and even more so when it comes to leveraged trading products like CFDs and Forex.

It's important to remember as an affiliate marketer in this industry, you have to be aware of the regulations in your country or the country you are promoting to, and you should avoid promoting any financial services or products that are not compliant with the local laws.

By following these dos and don'ts, you can ensure your affiliate marketing campaigns are ethical, effective, and compliant with the law.

Promoting the ACY Securities Spin and Win offer

Since 2018, ACY Securities has been running its Spin and Win promotion, which has become ACY's longest running and most popular promotion to date.

This promotion offers new clients an exciting incentive to start trading with ACY Securities, while also providing affiliates with an easy way to attract new clients and earn commissions.

By depositing \$2,000 or more, clients get a Spin to Win a range of fantastic prizes from trading credits to luxury items like sports cars, watches, and even gold! And the best part? Every spin wins a prize!

As an affiliate, promoting the Spin and Win promotion is an excellent way to attract new clients to ACY Securities, while also earning commissions on their trades.

The steps to promote the Spin and Win promotion are as follows:

1. Grab your affiliate link and replace the details after LTD with your affiliate number <https://acy.com/en/campaign/forex-bonus-giveaway?affiliate-LTD9XXXX>
2. Use this link on all your promotions including the banners we have in the ACY Securities client portal.

Know your Target Market

Knowing your target market is essential when running your affiliate campaigns. It allows you to tailor your promotions and marketing efforts to the specific needs and interests of your audience, which can greatly improve the effectiveness of your campaigns.

Targeting the right audience for your marketing offers can significantly reduce your cost per acquisition (CPA) by ensuring your promotions are reaching individuals who are more likely to be interested in the growing world of trading the global markets. In the high-cost world of attracting Forex traders, nothing is more important than knowing this.

For example, if you are promoting our suite of Forex trading products ([MT4](#), [MT5](#), [Using Expert Advisors](#) or our webinar training program), it would be more effective to target your marketing efforts towards individuals who are interested in forex trading, such as experienced traders or those who have shown an interest in the financial markets.

These individuals are more likely to be interested in the products and services you are promoting and are more likely to convert into clients who deposit and start trading straight away. Remember, your goal is to get active traders who love trading the global markets.

On the other hand, if you were to target your marketing efforts towards individuals who have an interest in gardening, it is unlikely they would have an interest in any of our Forex offers, no matter how compelling they are.

These individuals would be less likely to convert into live trading accounts, and your marketing efforts would be less effective.

Using Social Media

Promoting your affiliate link on social media can be a powerful way to drive traffic to your forex affiliate links.

Here are some tips for success on different social media platforms:

Youtube

On YouTube, consider creating educational videos about forex trading and using your affiliate link in the description or video itself. You could also create reviews of the ACY Securities trading MT4 and MT5 platforms, demonstrating how they work in practice. Collaborating with other YouTubers in the forex niche could also help expand your reach.

One of our most successful affiliates has built a fantastic following on YouTube by creating high-quality and informative trading videos that resonate with his audience. He has honed his niche by targeting specific trading topics and presenting them in an engaging and easy-to-understand manner. By sharing his insights and experiences, he has built a reputation as a trusted expert in the forex trading space. His videos have generated hundreds of leads every year, as his viewers often click through to his affiliate link to sign up for our trading platform. His success on YouTube can be attributed to his consistent content creation, his focus on quality over quantity, and his ability to connect with his audience on a personal level. He also uses calls-to-action and clear links in the description of his videos, making it easy for interested viewers to take action and sign up for our platform.

Twitter (Now known as X)

[Twitter](#) is a fast-paced platform, so it's important to use attention-grabbing headlines and visuals. Consider using hashtags like #forex or #trading to reach a wider audience. Share market news, trading tips, and other relevant information your followers might find interesting. Retweeting other traders or forex-related accounts could also help build relationships and increase visibility.

Facebook

[Facebook](#) is a great platform for building a community around your forex trading products. Consider creating a Facebook group where you can share news, trading tips, and other information. You could also consider using paid Facebook ads to reach a wider audience. In some countries, the cost per click is quite low.

Instagram

[Instagram](#) is a highly visual platform, so consider creating eye-catching graphics and videos to promote your affiliate link. Share photos of your trading platform or screenshots of successful trades. Using relevant hashtags like #forextrading or #tradingtips can help increase visibility.

LinkedIn

[LinkedIn](#) is a professional platform, so consider sharing educational content about forex trading. Use keywords and hashtags relevant to the industry and your products. Joining forex trading groups on LinkedIn could also help expand your reach and connect with other traders.

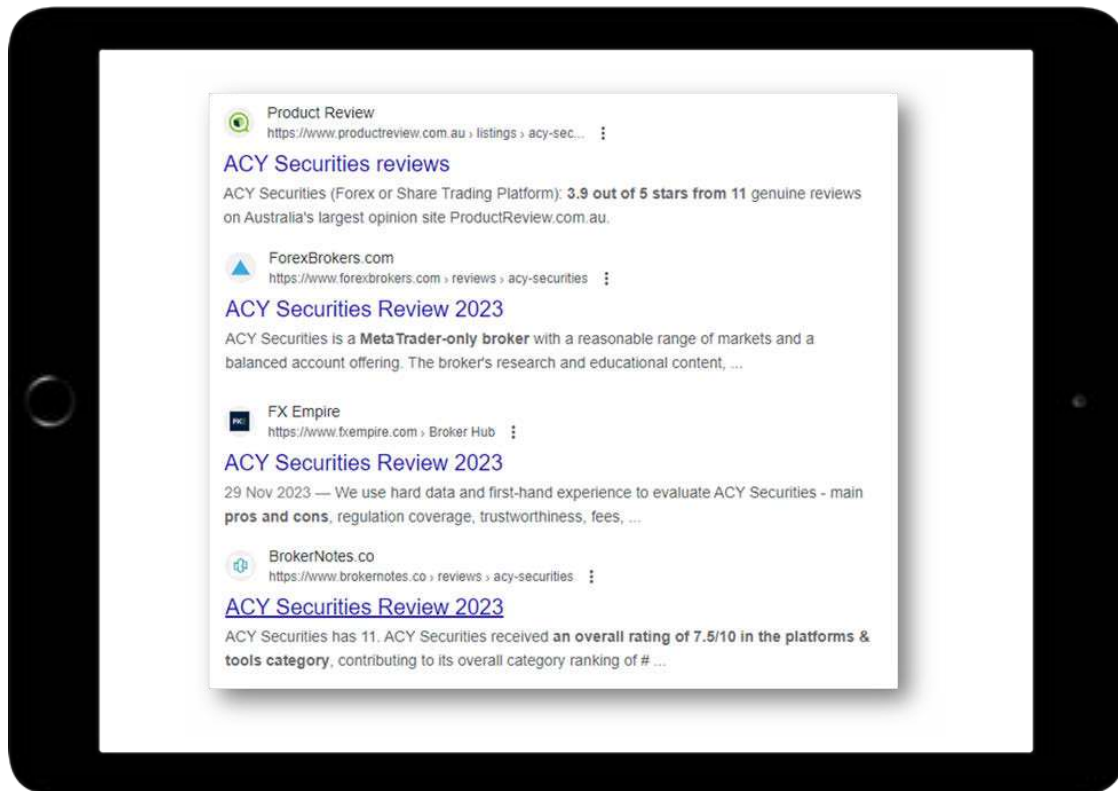

Using a blog to drive organic SEO Traffic

Using a blog to promote your affiliate link can be an effective way to drive traffic to your affiliate link. However, the forex industry is highly competitive when it comes to SEO, so it's important to take a strategic approach.

One effective strategy used by our power affiliates is to create product review pages that target specific keywords and phrases. By conducting thorough keyword research and creating high-quality, informative content, you can rank highly in search engine results pages (SERPs), driving traffic to your review pages and ultimately to your affiliate links.

Here are some examples of ACY Securities review pages that are ranking on the first page of Google, driving a lot of impressions and clicks for each website.

By consistently creating SEO-focused content and targeting specific keywords, you can build a strong online presence that drives leads and conversions. This approach requires an investment of time and resources, but the long-term benefits can be substantial in terms of sustained traffic and conversions.

Using email to Generate Business

Do you have a trading-related email list? If so, you have a powerful tool at your disposal for generating clicks to your affiliate links.

One effective way to use email marketing to promote your forex affiliate links is to create a newsletter providing valuable insights and information to your subscribers. If you already have an active email list which you send fresh content to, then you are well ahead of the curve.

By consistently delivering high-quality content, you can build trust and establish yourself as a thought leader in the industry. You can then use this newsletter to promote your affiliate link and drive traffic to the ACY Securities trading platform or education pages.

It's important to strike a balance between providing value to your subscribers and promoting your affiliate link, as spamming your list with constant promotional messages can quickly erode trust and lead to high unsubscribe rates.

You can also consider segmenting your email list based on subscriber interests and behaviour, allowing you to deliver targeted messages that are more likely to resonate and drive clicks.

And they have nearly reached the 1,000 standard lots (currently on 887 lots) in the Metals section to hit level 1.

You will see each section turn green to indicate you can click and collect your levelling bonus.

How are the bonuses applied at each level?

When you have hit level one, you can click to receive the level one bonus or let it ride to level two or other levels. The decision is up to you.

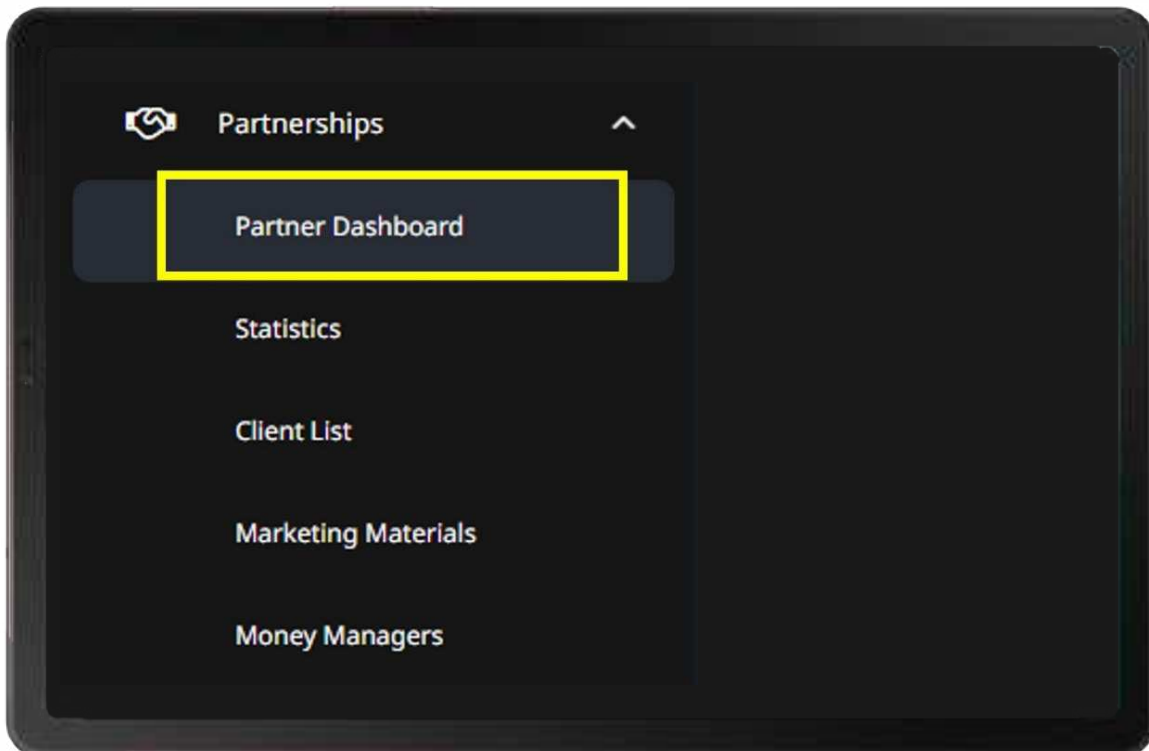

So, the bonus applied all depends on whether any of the previous bonuses have been collected or not.

The table below shows the scenarios available on how you receive their bonuses.

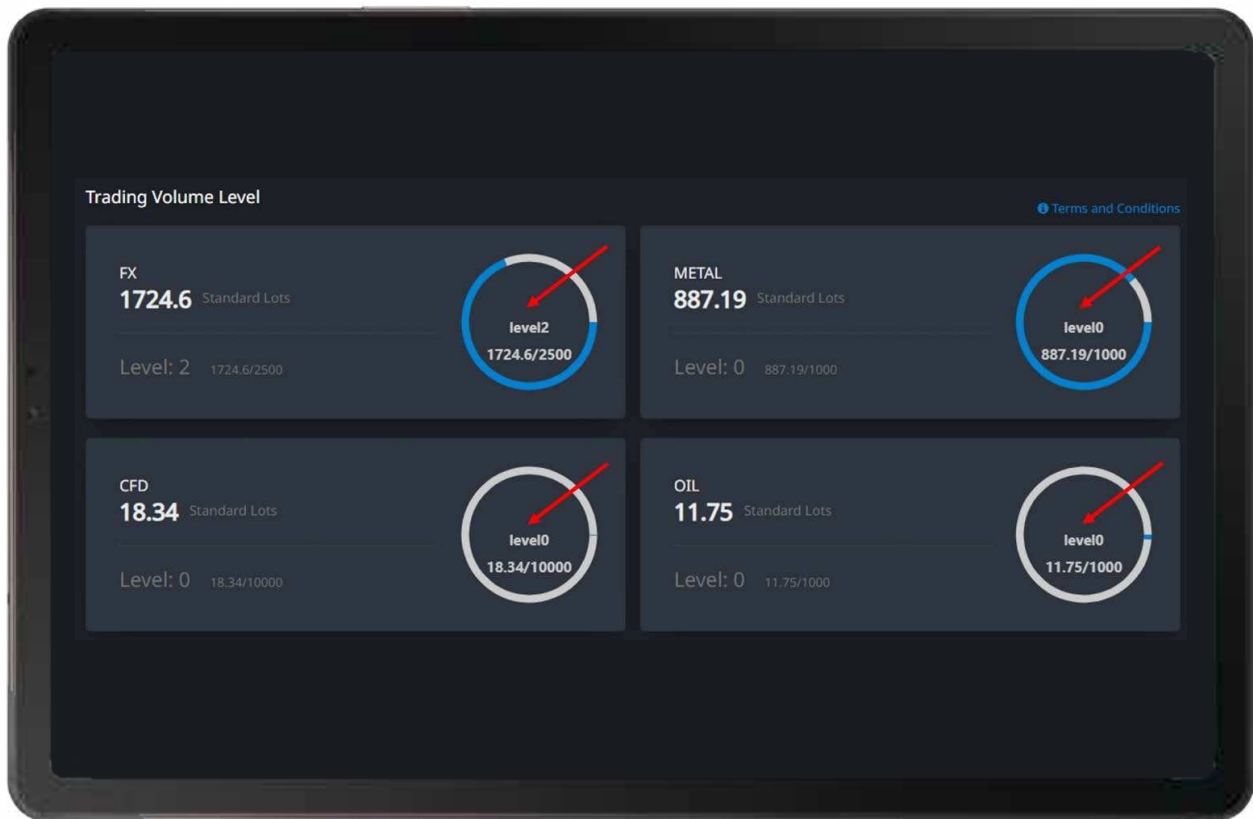

Level	Lots	Bonus	Eligible Bonus	Level 5

				If level one has been collected but not level two, they will receive the difference $(250-100) = \$150$
				If neither level one or two has been collected, they will receive \$250.
